Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Friday 10 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Grey and increasingly murky on Saturday with rain at times.

This Evening and Tonight:
A few showers continuing across Devon and Cornwall this evening. Remaining generally dry elsewhere with lengthy clear periods, and a patchy rural frost developing in some eastern counties. Turning cloudier and less cold by dawn with light rain reaching Cornwall. Minimum temperature -1 deg C (30 deg F).

Saturday:
A generally cloudy and increasingly damp day with rain and drizzle at times, especially over the higher ground. Becoming breezy and milder but with extensive low cloud and hill fog. Maximum temperature 13 deg C (55 deg F).

Outlook for Sunday to Tuesday:
Remaining largely unsettled and cloudy with occasional periods of rain, but perhaps brighter on Tuesday. Often breezy and quite windy on Sunday night in the west. Staying very mild.
